Kommentierungseinstellungen

Some discussion related settings are not located in the Discussion Control Panel. To enable comments for a specific content type, go to the Types Control Panel of this type and choose "Allow comments". To enable the moderation workflow for comments, go to the Types Control Panel, choose "Comment" and set workflow to "Comment Review Workflow".

☑ **Kommentierungsfunktion generell einschalten**

If selected, users are able to post comments on the site. Though, you have to enable comments for specific content types, folders or content objects before users will be able to post comments.
☐ **Anonyme Kommentare**

Wenn Sie diese Einstellung aktivieren, können anonyme Benutzer Kommentare abgeben. Es ist empfehlenswert, dann auch Captchas zu aktivieren.

☐ **Enable comment moderation**

If selected, comments will enter a 'Pending' state in which they are invisible to the public. A user with the 'Review comments' permission ('Reviewer' or 'Manager') can approve comments to make them visible to the public. If you want to enable a custom comment workflow, you have to go to the types control panel.
Text transformationen ■

Use this setting to choose if the comment text should be transformed in any way. You can choose between 'Plain text' and 'Intelligent text'. 'Intelligent text' converts plain text into HTML where line breaks and indentation is preserved, and web and email addresses are made into clickable links.

| Plain text ⬍ |

Captcha ■

Use this setting to enable or disable Captcha validation for comments. Install plone.formwidget.captcha, plone.formwidget.recaptcha, collective.akismet, or collective.z3cform.norobots if there are no options available.

| Ausgeschaltet ⬍ |

☑ **Zeige das Portrait des Kommentators**

Wenn Sie diese Einstellung aktivieren, wird das Porträt des kommentierenden Benutzers neben dem Kommentar angezeigt.

☐ **Email-Benachrichtigungen für Moderatoren aktivieren**

If selected, the moderator is notified if a comment needs attention. The moderator email address can be found in the 'Mail settings' control panel (Site 'From' address)

Moderator Email Address

E-Mail Adresse an welche die Moderatoren-Benachrichtigungen gesendet werden.

| |

☑ **E-Mail-Benachrichtigungen für Benutzer aktivieren**

If selected, users can choose to be notified of new comments by email.
